Hello Harsha,

We are pleased to have a fruitful business relationship with CSG for more than six years.

We have full appreciation for your product quality, service and response. It built trust in your company. We have been selling your 450 MHz Panel Antennas and various other RF products to cellular operator in our country and to many our resellers.

We did not encounter any failures in harsh environment. Please extend our appreciation to your team for the good job done.

That we have transacted large volumes with repeat orders bears a testimony to our mutual trust and business success.

With best wishes!!
